DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1. Claim 3 is ambiguous. It might be further narrowing the step (a) temperature, or it might refer to so other step, e.g. the hydrolysis reaction of step (c). Note claim 11 in this regard.
2. The intent of claim 20 is unclear. It appears to be identical to claim 18. Is the dependency wrong?
3. Judging from claim 21, claim 1 step (e) must be considered as miswritten. It appears that the intention is to precipitate cefixime trihydrate, not cefixime itself. These are different things, with different chemical composition.

Claim 21 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claim as written does not limit claim 1, as claim 1 does not provide for cefixime in the first place.

Also, claim 21 needs to end in a period.
